## MAY PAY FOR WAR DAMAGE

House Committee Investigating Claims of Southerners.

[Special to The Times-Dispatch.]

Washington, D. C., December 4.—If a bill which the House Committee on War Claims to-day reported favorably is passed thousands of dollars will shortly go into the pockets of people in the South. These claims arose out of depredations done to Southern property-holders by Federal soldiers during or immediately following the Civil War. For many years past efforts have been made to get all of these claims paid, but without success.

For many years past efforts have been made to get all of these claims paid, but without success.

Virginia probably has in this bill more items than any other State in the South. This is due to the fact that the hardest fighting of the four years' war was done in Virginia, and that much property should have suffered thereby is the natural consequence.

Every part of the State will profit if this bill is passed. From Norfolk to Roanoke there are property owners who are closely following this legislation.

Among the largest items are those of \$18.475, which would go to Robert G. Griffin and others for damage done in York County; Mary S. Armistead and others, \$3.690, of Prince George County; L. J. Bowden and others, \$3.540; litenty Fitzhugh, \$1,890, Nathaniel Fox, \$5,155, and others varying in different amounts.

amounts.

Efforts will be made to have the bill passed immediately.

State prison.

What Petition Recites.

The formal petition for pardon recites that Hancock is thirty-three years of age, that he was born in Fredericksburg, that he was born in Fredericksburg, that he is a druggist by profession, and had failed in business in Norfolk; that he was married eight years ago to a Mrs. Herndon, formerly Miss Bessle Taylor. The petition then states that Hancock under the pressure of hard circumstances, yielded to temptation and purchased for cash in Memphis fifty ounces of cocaine, which he was attempting to dispose of when arrested. The petition denies that he was at any time the "cocaine king" described by the police, and asserts

## RESPONSIBILITY ON SOUTH

On It Depends Future Prosperity of United States.

Jacksonville, Fla., December 4.—"The South must bear the chief responsibility for the future prospecty of the United States, both North and South." declared Dr. Cyril G. Hopkins, the director of agriculture of the Southern Settlement and Development Organization, speaking here to-day at a meeting of the organization, which has as its aim the colonization of the untilled acres in the sixteen Southern States.

"The most perfect agricultural climate of the United States belongs to the Southland, together with the most neglected opportunities, and the greatest possibilities of agricultural development," said he.

"The unwelcome facts are that from 1899 to 1999 the population of the United States hereased by 21 per cent, while the area of farm land increased in per cent, whereas from 1990 to 1919 the population again increased 21 per cent while the area of farm land increased as per cent, whereas from 1900 to 1919 the population again increased 11 per cent while the increase in farm land was less than 5 per cent. Besides this, all possible future increase in the area of farm land in the United States is less than 5 per cent, and even this will require large expense for drainage and irrigation."

Florida is the first Southern State in which the organization of the Southern Settlement and Development Organization has been completed.

Present at to-day's session were W. It. Manss, vice-president-general manager; C. S. Ucker, director of colonization pr. Cyril G. Hopkins, director of agriculture; Malcolm McDowell, director of opublicity; Richard Persons, general agent at Winnipeg, and W. T. Berg, general agent at Winnipeg, and W. T. Berg, general agent in Chicago.

mot a burden upon the people. It is an assistance to the people. It is an assistance to the farmers, workingmen, industrialists and to the mechanics. The moment you stop the construction of battleships, you turn out of employment, not only men on the farm, men engaged in the mines, but you will also turn out of employment men of this great factories and great industries of this country."

Representative Slayden, of Texas, suggested that if the building of battleships was a beneat to the country, why should not fifty such shirps be built and the benefits distributed.

That would be unnecessary, and would be of ne advantage," replied burners of them was earners. She built and the benefits distributed.

The Equalize Distribution.
